

LLumar® iLLusions™ Decorative Window Film  
Imagine the possibilities.

Inspiration comes in many forms.  
LLumar® iLLusions™ brings your vision to life.

Whether you're creating a mood or addressing a functional concern, it's sometimes hard to know when inspiration will strike. When it does, LLumar iLLusions decorative films are here for you, with a broad palette of styles that includes frosts, patterns, textures, gradients and specialties. They'll bring your vision to life.

Able to brilliantly enhance existing properties or new projects, LLumar iLLusions is everything you need it to be. Durable yet also removable, it can be a lasting feature or temporary update. For a wide range of design and project goals, you'll find it hard to resist experimenting with LLumar iLLusions. That's because this line of over 50 styles of decorative film has been carefully curated to spark ideas and fuel imagination.

## Realistic textures

This series of elegant films can refract light and simulate the sparkle and clarity of a textured glass window, without the designer glass cost.

## Design ideas

- Create an upscale look for medical office entrances
- Provide ambience and mystery in a spa setting
- Reduce distractions in conference rooms

Brushed Crystal (NRMV BC)

Crackled Glass (NRMV CG)

Satin Crystal Clear

Sandblast

Frosted Glass

## Elegant frosts

The frost film series ensures privacy and diffuses light without compromising brightness, allowing it to deliver on design goals for a fraction of the cost of etched glass.

## Design ideas

- Distinguish lobby entrances with logo and branding cutouts
- Conceal clutter in copy, storage and library areas
- Add privacy in bathrooms and private offices

## Modern gradients

A match for current design trends, each of the unique patterns in this series transitions from clear to opaque. Gradient films are a smart solution to partially block out views, selectively hide unattractive areas or add a fresh design element.

### Design ideas

- Reduce the “fishbowl effect” in conference rooms
- Meet varying privacy needs in hotel spaces
- Maximize light flow through the top of glass walls

"Views and natural light enhance the quality of a workplace. However, they often conflict with program requirements for privacy. LLumar® iLLusions™ films enable designers to provide visual control where required and maximize access to daylight and views. The range of patterns and gradients available provide a broad range of aesthetic opportunities."
